IT IS TIME TO NOURISH THE TIGER

AUTHOR'S CULINARY ARTISTRY

The Warsaw Tiger transcends boundaries, merging Asian influences with Marszałkowska, dumplings with kimchi, and chicken soup with miso, without questioning the appropriateness of its combinations. It would be unkind not to visit and sample it.

Sebastian Wępa – the chef who established the culinary vision for Tygrys. He is a renowned figure in Warsaw's gastronomy, with a reputation founded on his dishes rather than mere words.

DESIGNERS AND ARTISTS

*Art and world-class architecture converge at a single table.
Warszawski Tygrys is a restaurant crafted without compromise,
where the spatial artistry of NOKE Architects harmoniously
integrates with the unyielding creativity of Ola Niepsuj.*

Noke Architects

For years, the Warsaw-based studio NOKE has been crafting some of the most coveted and iconic concepts in Poland, including Va Bene Cicchetti and the Food Hall at Browary Warszawskie. Their projects frequently adorn the covers of international media outlets (Dezeen, ArchDaily, AD) and have garnered esteemed accolades (AD100, Iconic Awards). NOKE transcends mere spatial design; it cultivates environments with distinctive narratives that inherently draw and engage individuals.

Ola Niepsuj

The visual identity of the concept is crafted by Ola Niepsuj, an internationally acclaimed artist known for her designs for industry leaders such as Apple, Nike, IKEA, and HBO. Central to the project is her signature sculpture table - a functional art installation that, paired with her striking and witty graphics, imparts a distinctive character to the space. The inclusion of her work signifies the utmost prestige, drawing the attention of international media and positioning the venue as a viral focal point on the city map.
